WHY HP NOTEBOOKS

QUALITY & RELIABILITY
Military standard testing procedures ensure HP PC's go above and beyond what they may endure on a typical day in a business environment

ELEGANT DESIGN
Balance design, power and mobility with light and compact aluminium PCs built for professionals who require high performance while on the go

POWERFUL FEATURES
Get to work quickly with a powerful, highly secure processor, outstanding battery life & ultra bright display

CRYSTAL CLEAR COLLABORATION
Make crisp and clear productive calls with advanced features including HP Noise Cancellation, loud top-firing speakers and the world-facing third microphone

WORLD'S MOST SECURE PCS

HARDWARE-ENFORCED RESILIENCE
Engineered with hardened security features to protect, detect and recover from a breach

SECURE FOUNDATIONS
Protect your PC against the evolving malware threats of the future from the BIOS to the browser, with HP's self-healing, manageable 'Sure' security solutions

PROACTIVE SECURITY MANAGEMENT
Transform endpoints from your biggest risk to your best defence with HP DaaS

HP SECURITY LABS
Exist to help HP build the most secure notebooks in the world

SUSTAINABLE IMPACT AT DTP & HP

OUR COMMITMENT TO REDUCING WASTE
DTP have made significant investment in a waste management plant, ensuring 0% of the packaging from HP notebooks goes to landfill

LOGISTICS
DTP ensures all customer deliveries are consolidated, cutting down CO2 emissions, as well as collecting and discarding old equipment at the same time

AWARD WINNING SUSTAINABLE PARTNER
HP receives top honours for action on climate, forests and water

CREATING LASTING POSITIVE CHANGE FOR THE PLANET
HP are transforming their entire business to drive a more efficient, circular and low-carbon economy

DTP & HP'S DEVICE AS A SERVICE (DaaS)
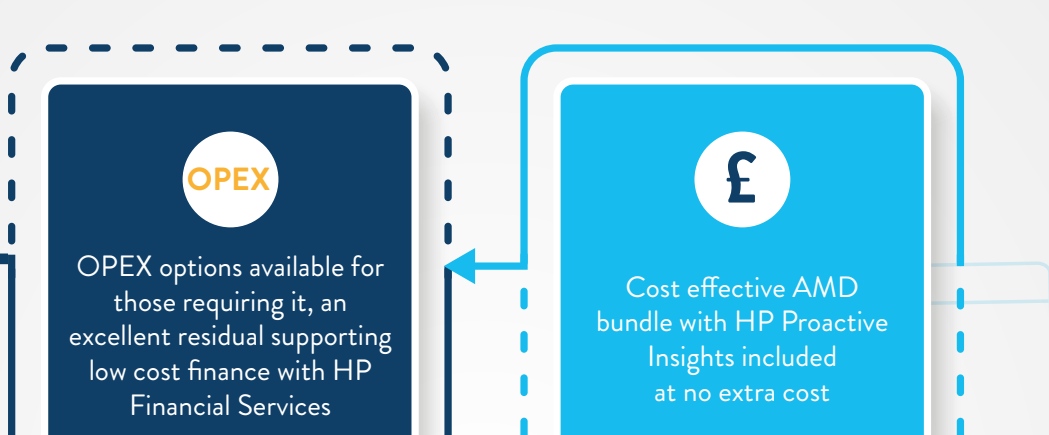

HP DEVICES + DTP AND HP SERVICES + ANALYTICS AND MANAGEMENT = DaaS

HP Device as a Service (DaaS) enhanced by DTP, delivers a modern service model that simplifies how organisations equip users with the right hardware, support, device management and lifecycle services to get the job done – improving end user productivity, IT efficiency and cost predictability.

DaaS offers a flexible approach to financing, enabling those who require it to finance both the device hardware and any services around the device including installation, onsite services, monitoring, analytic software and end of life services into a single monthly or quarterly per device payment plan.

COST EFFECTIVE

OPEX OPEX options available for those requiring it, an excellent residual supporting low cost finance with HP Financial Services

£ Cost effective AMD bundle with HP Proactive Insights included at no extra cost

REDUCED RISK

HP Proactive Insights proactively anticipates problems and fixes them before they occur

Leave the arduous task of securing, monitoring and managing your multi-OS devices in the capable hands of DTP and HP Service Experts

TIME SAVED

AMD offer inclusive of HP Proactive Insights immediately available on HP products

DTP manage the whole device lifecycle from commissioning and deployment through to the decommissioning of devices

IT teams are stretched. Offload as little or as much of your device management as you would like, freeing up your IT staff to focus on other priorities
